Dear Dr. Loom:

One of my chief disappointments in Thailand was that my stay there was too short and I did not have the opportunity of meeting you. I heard many enthusiastic reports of your work. Drs. Baker & Rosahn are special admirers of yours.

Dr. Rosahn suggested that you would be interested in participating in a project which is explained in the accompanying printed sheets. I have asked him to be in charge for the Thailand area, but he seems to think your contribution will be greater. So, if you care to be co-author with him in a brief chapter, corresponding to the inclosed outline on Chorn epithelium (& associated lesions) in Thailand, will you kindly ring him up some evening at the Princess Hotel & suggest a time & place to meet in order to map out your campaign?

I have your name & address in my suitcase & am sending this from memory. Please forgive any mistakes in spelling or address.

Sincerely,

Lalla Iverson, M.D.
